Global Engineering Process (GEP)

Version 4.0.2

Tested according to

Geprüft nach

ISO/SAE 21434:2021

(following ISO/PAS 5112:2022)

Technical Data and Parameter

Technische Daten und Parameter

The evaluation has been performed acc. to ISO/SAE 21434:2021 clause 5.4.7 "Organizational Cybersecurity Audit". The audited development process corresponds to the security development lifecycle (SDL) used in practice and follows the understanding of a Cybersecurity Management System as expected acc. to ISO/SAE 21434.

The certificate is created for the purpose of providing conformity of the organization development and support process in accordance with ISO/SAE 21434. Changes which are not covered in the audit report have to be reconsidered.

Surveillance

Überwachung

Certificate is valid for the specified version only; surveillance period is 3 years.

The certificate is based on voluntary tests. The compliance of the certified product against the requirements of above listed standards was evaluated. Any changes to the design, components or processing may require repetition of some parts of the certification in order to retain the certification. All applicable requirements of the testing and certification regulations of SGS-TÜV Saar GmbH have to be complied, see www.sgs-tuv-saar.com/tcr-muc and www.sgs-tuv-saar.com/gtc-muc.
